	Operators, and Tenders								

Source: [JobsEQ®](#)

1. Occupation employment and unemployment are place-of-residence data--that is, referring to workers who reside in the named locality.

2. Occupation wages are as of 2019 and represent the average for all Covered Employment

Data as of 2020Q3 unless noted otherwise

Note: Figures may not sum due to rounding.

Column Glossary

SOC	The Standard Occupational Classification code.
Title	The name of the Standard Occupational Classification code.
New Employer Demand	Estimated number of employees needed in the specified occupation by the incoming firm.
Empl (Place of Residence) ¹	Estimated number of workers currently employed in the occupation in the region by residence.
Unempl ¹	Estimated number of workers unemployed in the occupation in the region by residence.
Regional Avg Wage ²	National average wage adjusted by the selected region's cost of living.
National Avg Wage ²	Average wage for selected occupation in the nation.
Empl Extended	Regional workers meeting the following three criteria: • Are currently employed. • Have similar skills to the specified occupation (though may need additional training and/or certification to meet the specified occupation's requirements). • Current wages are no more than 10% higher than average wages of the specified occupation.
Unempl Extended	Same as Employment Extended except these workers are currently unemployed.
Potential Candidates per Opening	The ratio of potential candidates (employed plus unemployed) to the new employer demand. The coloring reflects varying ratio levels, red-orange-yellow-green, with the former representing short labor supplies and the lattermost reflecting generally ample supply. (The threshold for an "ample" supply varies industry to industry and occupation to occupation, but a general threshold of "50" is used in JobsEQ to denote the green level of generally ample supply.)
